| Length | 10' |

Decorative Mural wall panels are installed with a hidden fastener system. Thanks to these invisible fasteners the panels are easy to install and help create contemporary surfaces with clean, flowing lines.

High-end metal siding.

Perfect for complete mural applications or as a decorative accent to your building.

- Invisible screw profile
- Low maintenance
- Horizontal or vertical installation
- Resistant to high winds

- 40-year limited warranty
- Long life cycle
- Multi-layer weather resistant paint
